

# Weekly Challenge!

Can we find, name  
and talk about  
numbers?

## Grown-ups:

This week will you help your child to find numbers in the home, outside, in shops etc. Could you support your child to name the number and also talk about the number if it is significant to them, such as the number 3 which might be their age. Could you particularly talk about the number on your house. If you want to, you could post your child's achievements on their tapestry account.
