Can you help me to wash my hands properly?

Grown-ups:

In view of the Government's guidance on handwashing as a measure to protect everyone against viruses, we thought that it would be a good idea for the children to learn how to wash their hands properly, rather than a quick dip under the tap! Various video's are available online, the NHS has a hand washing song for young children <https://www.youtube.com/watch?v=S9VjeIWLnEg>.

The general message is that hands must be washed with soap and hot water (be careful the water isn't too hot) thoroughly for 20 seconds. We are reinforcing hand washing here in school. You could post your child's efforts on their Tapestry account.
